Machine translation system for translation of text — has HTML download unit and translator for downloading document from internet and translates to desired language and displays translated document

MATSUSHITA DENKI SANGYO KK 1998.02.05 1998JP-024332

(1999.08.17) G06F 17/28, G06F 12/00, 13/00

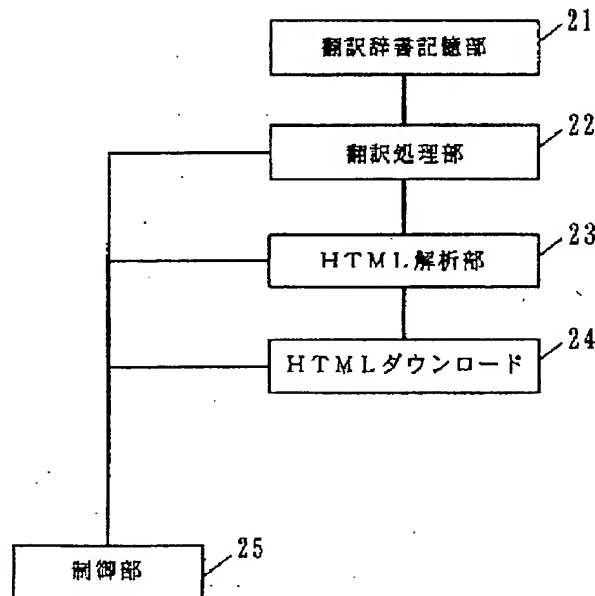

NOVELTY - HTML download unit (24) downloads HTML document from internet, and a translator (22) translates the downloaded document. A controller (25) with a translation flag to determine whether to translate or not is provided and the translated HTML document is displayed. DETAILED DESCRIPTION - An INDEPENDENT CLAIM is also included for machine translation procedure.

Use: For translating a text from one language to another.

Advantage: Translation indication is simplified by setting the translation flag.
DESCRIPTION OF DRAWING(S) - The figure shows the functional block diagram of machine translation apparatus. (22) Translator; (24) HTML download unit; (25) Controller. (6pp Dwg.No.2/5)
